

Electrical Tutor

Location: Stockport
Hours: Full Time applicable)
Contract: Permanent

About Us

Elevated Knowledge is a leading provider of apprenticeship and commercial training programmes, delivering high-quality, industry-relevant learning to apprentices and learners across the engineering sectors. We work closely with employers to ensure our provision meets the needs of industry, and we're proud of our reputation for outstanding teaching, learning, and assessment.

We are now looking for an experienced Electrical Tutor to join our growing team, delivering engaging and technically excellent training to apprentices and commercial course learners.

The Role

As an Electrical Tutor, you will deliver theoretical and practical training across our electrical apprenticeship programmes (e.g. Engineering maintenance technician, Level 3 single and dual discipline and short commercial courses, ensuring learners are supported to achieve their qualifications and progress into skilled employment.

Key Responsibilities:

- Plan, prepare, and deliver high-quality classroom and practical workshop sessions covering electrical installation, testing, and maintenance
- Deliver commercial short courses (e.g. 18th Edition, Inspection & Testing, PAT Testing) to industry professionals
- Assess learner progress against apprenticeship standards and qualification criteria, providing constructive feedback
- Prepare learners for End Point Assessment and external examinations
- Maintain accurate learner records, tracking progress, attendance, and achievement in line with awarding body and funding requirements
- Ensure all training delivery meets health & safety, safeguarding, and Prevent duty requirements
- Keep up to date with changes to wiring regulations, industry standards, and best practice, embedding these into course content
- Support learners with additional needs, ensuring inclusive teaching practice
- Build and maintain strong relationships with employers to ensure training remains relevant to workplace needs
- Contribute to curriculum development, resource creation, and continuous improvement of course materials

What We're Looking For

Essential:

- Current 18th Edition (BS 7671) qualification
- Recognised electrical qualification (e.g. NVQ Level 3 Electrotechnical, City & Guilds 2365/2360, or equivalent)
- Substantial industry experience as a qualified electrician
- A teaching/training qualification, or willingness to work towards one (e.g. Level 3 AET / PTLLS, or Level 5 DET)
- Strong working knowledge of current wiring regulations and industry standards
- Excellent communication skills, with the ability to engage and motivate learners of varying abilities
- Good organisational skills and IT proficiency (e.g. Microsoft Office, learner management systems)

Desirable:

- Assessor qualification (e.g. TAQA, A1/CAVA)
- Internal Quality Assurance qualification (e.g. IQA/V1)
- Experience delivering apprenticeship standards and working with End Point Assessment Organisations
- Inspection & Testing qualification (C&G 2391 or equivalent)
- Experience delivering commercial/CPD short courses
- A full UK driving licence (if travel to employer sites is required)

All appointments are subject to an Enhanced DBS check.

What We Offer

- Competitive salary, dependent on experience
- holiday entitlement- 25 days
- Ongoing professional development and support towards further qualifications
- A supportive, collaborative team environment
- The opportunity to make a genuine difference to the next generation of engineers.

How to Apply

To apply, please send your CV and a covering letter outlining your suitability for the role to Louisepollitt@elevatedknowledge.co.uk by 25/7/26.

Elevated Knowledge is committed to safeguarding and promoting the welfare of children and vulnerable adults. All post holders are subject to safer recruitment checks, including an Enhanced DBS check.

We are an equal opportunities employer and welcome applications from all sections of the community.
